Aims and Scope

The Majestic American Journal of Environmental Science is an international journal dedicated to advancing interdisciplinary research on broad range of topics dealing with environmental issues and sustainable solutions. Our mission is to promote global scientific exchange by publishing contributions in the field of environmental sciences. We aim to promote scientific understanding of environmental challenges and encourage the development of innovative approaches for environmental protection and management.

Call for Papers

MAJES cordially invites research scholars and academicians, governmental agencies involved in environmental protection and policy making, and regulatory authorities to submit original research articles, review papers, short communication, short communications, case studies and perspective that advance knowledge, promote innovation, and address emerging challenges in the field of environmental science and technology at the global level.
