

## Preface

It is with great pleasure that I present this edition of “*Majestic Greengenix: A Journal of Modern Plant Science*.” Our journal continues to serve as a platform for pioneering research, thoughtful analysis, and rigorous scientific inquiry spanning the diverse and rapidly evolving landscape of plant science.

In an era defined by environmental uncertainty, technological advancement, and increasing global demand for sustainable solutions, the study of plants holds profound significance. Modern plant science stands at the intersection of biology, ecology, biotechnology, and environmental stewardship, fields that together provide critical insights into food security, climate resilience, conservation, and the future of our planet.

This volume features contributions from researchers, innovators, and experts across multiple disciplines, showcasing the richness and breadth of inquiry within contemporary plant science. The articles selected reflect our journal’s commitment to advancing knowledge that is both methodologically robust and deeply impactful, ensuring that *Majestic Greengenix* remains at the forefront of scientific progress and practical application.

I extend my sincere gratitude to our authors, whose dedication and scholarly contributions make this publication possible; to our peer reviewers, whose careful evaluations uphold the highest standards of quality; and to our editorial team, whose unwavering commitment brings each issue to fruition.

As you explore the research presented in this edition, I hope it inspires new ideas, supports meaningful dialogue, and deepens your understanding of the vital role plant science plays in addressing the challenges and possibilities of our modern world.

Thank you for your continued support of *Majestic Greengenix: A Journal of Modern Plant Science*. We look forward to your feedback and to fostering the important conversations that shape and strengthen our scientific community.

Sincerely,

**Dr. Anjum Perveen**
