

Preface

It is my honor as the *Editor-in-Chief* to present the *Majestic Journal of Zoology (MJZ)*, a scholarly platform dedicated to the advancement of knowledge regarding animal sciences and their related disciplines. Zoological research plays a vital role in appreciating the diversity of life, studying ecological interactions, the process of evolution and conservation of animals in this fast-paced dynamically transforming world.

MJZ is devoted to publishing research while maintaining high-quality standards and welcomes contributions in animal biology and behavioral sciences, taxonomy, genetics, ecology and wildlife conservation as well as other related fields. The journal thus provides a platform for the dissemination of innovative scientific findings pertaining to zoological sciences. Moreover, collaborations are encouraged in research that address contemporary challenges faced by terrestrial and aquatic fauna, biodiversity and the ecosystems globally.

The articles contributed for publication by scholars in the field may be original research articles, review articles, case reports or short communications. *MJZ* invites articles presenting current advances in zoological sciences and emphasizes the need to enhance understanding of animal life and its inter- and intra-species relationships in society. I extend my sincere appreciation to the authors for their valuable contributions to our journal to improve knowledge regarding zoological sciences and hope that it may benefit the community at large.

Furthermore, the journal is committed to maintaining high ethical publishing standards that include scientific integrity and transparency. We uphold a rigorous peer-review evaluation process to ensure the reliability, quality and scientific merit of research published in the journal. By upholding these principles, journal thus aims to build trust within the scientific community and invites scholarly contributions for advancements in the field.
