

Preface

It is my pleasure to present Volume 1 (2026) of the *Majestic Journal of Applied Engineering and Technology (MJAET)*. This inaugural volume marks an important milestone in our commitment to advancing high-quality research and innovation across the diverse fields of engineering, technology, and applied sciences.

MJAET is established with the vision of providing an international platform for researchers, academics, industry practitioners, and professionals to disseminate original, impactful, and interdisciplinary research that addresses both emerging challenges and real-world applications.

The articles in this volume reflect the diversity and depth of current engineering research, including cutting-edge approaches, technical advancements, real-world applications, and forward-thinking viewpoints. Collectively, these contributions show how crucial engineering and technology are to the advancement of society, sustainable development, and digital transformation.

I want to sincerely thank our authors for entrusting *MJAET* with their important research, our committed reviewers for their timely and helpful assessments, and the Editorial Board for their steadfast dedication to maintaining the journal's integrity and quality. Their combined efforts have been crucial to the successful publication of this first volume.

As *MJAET* expands, we are committed to advancing scholarly publishing and serving as a trusted platform for the international engineering and technology research community. We cordially encourage scholars from all around the world to share their creative work and cooperate with us to shape applied engineering and technology progress in the future.

I express my gratitude on behalf of the Editorial Board to all of our readers and contributors for their support and trust in *MJAET*. We hope that the articles in this volume will contribute meaningfully to science through thought-provoking and novel research and promote future collaborations.

Sincerely,

Dr. Chiang Liang Kok

Editor-in-Chief

Department of Electrical and Electronic Engineering, Newcastle Australia Institute of Higher Education, Australia
